DESCRIPTION

An app developer and a designer with over 3.5 years of development experience with proven

tendency to learn and adapt to new technologies in record time.

I work in both, Native Android (Kotlin) and Flutter App Development.

I have tendency to learn and adapt new things quickly. For example, I learned Node.js when I needed to work on some APIs, learned Figma when needed to demonstrate a UI concept with prototype, learned Strapi when a project required me for that, learned SDUI when a project needed and many more examples.

WORK EXPERIENCE

Infusible Coder

Feb, 2019 — Mar, 2021

Flutter/Android Developer

Worked as a native android and flutter developer and worked on variety of apps mainly using google maps, InApp payments, stripe, REST APIs, Firebase services

tenttwenty digital agency

Mar, 2021 — Feb, 2022

Flutter Developer

Worked here as full time flutter developer and partially backend dev using Strapi

SafariOne

Feb, 2022 — Present

App Developer (Flutter + Kotlin)

Currently working here as a full time app developer, working a native android app using jetpack compose, app will connect with vending machines for providing POS services using serial communication with the vending machine and also raspberryPi connection for machines which do not allow direct communication with internal hardware. Along with that, I am also working on a flutter app for the hosts, who will provide their property for hosting the vending machine for public use. Also sometimes doing UI/UX designing and prototyping.
